About:

iOS developer with 4.5 years of commercial experience across fintech, retail, and startup - from a 100K MAU banking app at Tinkoff Bank to building Pmtool.app - a multi-module project management tool from scratch at DevTeamSpace. Led a UIKit-to-SwiftUI migration that improved performance and component reuse across the team. Strong in Swift, SwiftUI, Swift Concurrency (async/await), Combine and clean architecture. Work well in small teams where ownership matters.

Skills:

iOS: Swift, Objective-C, SwiftUI, UIKit, Swift Concurrency (async/await), GCD, Combine, MVVM, MVC, Clean Architecture, Multi-module, SwiftData, CoreData, Alamofire, REST API and URLSession, WebSocket, Firebase, Unit testing: Swift Testing, XCTest, Snapshot Testing, TDD

Other: SPM, CocoaPods, Git, CI/CD, Fastlane, Agile, Scrum and Kanban, SOLID, DRY

Languages: Russian (native), English (fluent), Portuguese (intermediate), German (basic)

Experience

[DevTeamSpace Inc.](#) - iOS Developer | USA (Remote) | May 2024 - Present (2y)

- Built a Pmtool.app - project management tool powered by AI: **from scratch** across 18 modules **with one other iOS engineer**; co-designed module architecture.
- **Owned** design system, task tracker, user profile, and app settings screens end-to-end.
- Designed and implemented **WebSocket protocol from scratch** for real-time chat across projects. Networking layer built with REST API and **async/await (Swift Concurrency)**.
- Set up unit testing practice and wrote tests covering core app flows; **SLA above 99%**

[585Zolotoy.ru](#) - iOS Developer | Portugal (Remote) | Feb 2023 - May 2024 (1y 4m)

- Rebuilt onboarding and registration screens - registration completion **up 32%**.
- Redesigned product cards, purchase flow, and profile screens - purchase conversion **up 6%**.
- Initiated and led UIKit-to-SwiftUI migration; screens **opened faster**, components **reused across the team**.
- Built UIKit (programmatic) and SwiftUI components for the design system.
- Maintained **legacy Objective-C** using Combine, also worked with Swift codebase, including bug fixes and stability work.

[Tinkoff Bank](#) - iOS Developer | Russia (Hybrid) | Mar 2022 - Feb 2023 (1y)

- Worked on a B2B payments app for small and medium businesses with **MAU - 100K users**.
- Built registration, QR POS setup, cart, and payment screens.
- Shipped QR code payment feature on time with **SLA above 99%**.
- Developed and maintained UI components for the app design system using UIKit.
- Designed API integration with payment gateway.

[Tinkoff Bank](#) - System analyst | Russia (Hybrid) | Oct 2020 - Mar 2022 (1y 6m)

- Designed and launched Payment Gateway with micro-service architecture, REST API, Kafka

Education:

[Ural Federal University](#) - Russia | Master of Science in Nuclear Engineering - equivalent to Specialist Diploma, 5.5 years
